V.J. Coming To Grayling

Vinnie Johnson will again be the star attraction of a Pistons Basketball Clinic held at the Grayling High School gym on Sunday, September 23, starting at 2 p.m. Vinnie (Microwave) Johnson sank the winning basket in Game 5 of the finals to clinch the Pistons' victory and the World Championship last season.

Assisting in the clinic will be Pistons announcer and Grayling native George Blaha and Pistons Assistant coach Brendon Malone. Both Vinnie and Blaha conducted a basketball clinic here two years ago with former Pistons coach Dick Versace. Johnson put on a dazzling display of shooting. Cost of the clinic is \$5 per person. A concession stand and souvenir table will be available for all attending.

After the clinic, a reception will be held at the Grayling Holiday Inn, where sports fans will have a chance to talk one on one to Vinnie, George, and Brendon.

70 Donate At Blood Drive

On Wednesday, September 5, the Crawford County American Red Cross Blood Drive at the American Legion Hall collected 70 pints.

Two travelers, from Dalles, Oregon, Frances and Donald Young, saw the place mats advertising the Blood Drive and stopped to donate.

There were three first time donors: Allison Tinker, Marc Leask, and David Lemmen.

The top donor groups were: Camp Grayling, M.A.T.E.S., and Students.

Three donors received four gallon pins: Marilyn Harwood, Linda Fedak, and Marion Frankenfield.

The next Blood Drive will be Wednesday, November 7, at the Grayling High School.

Tuck Tries For Fame & Fortune

Tom Tuck, of Frederic, will be traveling to Detroit later this week to be a contestant on Saturday's Michigan Lottery Fame & Fortune TV game show.

Tuck said he purchases many of his lottery tickets from the North End Grocery in Frederic, but is unsure where he bought the ticket that was drawn last Saturday on the Fame & Fortune show.

"I've done pretty good with instant tickets," answered Tuck when asked whether he considered himself a "lucky person." He said he buys lottery tickets in streaks and then is able to play off his winnings for quite awhile.

Tuck said he won \$500 on a Double Cash ticket two weeks ago.

13 Local Military Men In Middle East

By Irene Pettyjohn

The number of military personnel from Crawford County being sent to the Persian Gulf area is continuing to grow.

MM2 Shawn Krayes is aboard the USS Goldsborough, a destroyer attached to the aircraft carrier USS Independence. The USS Goldsborough was recently involved in keeping a shipment of tea bound for Iraq from reaching port.

Shawn's home port is Pearl Harbor, Hawaii, where his wife, Joanne (nee Halstead), resides. Joanne's parents are Ray Halstead of Grayling and Hazel Halstead of Honolulu, Hawaii. Shawn's parents are Jerry and Sheila Krayes of Beaver Creek Township.

Patrick Mier DCFN has been in the Persian Gulf aboard the aircraft carrier, USS Independence, since August 5. Before tempers flared in the Middle East, the USS Independence was enroute to Japan, the Philippines, Hong Kong, Taiwan, and Australia, but its trip was cut short when the ship received orders to head for the Persian Gulf.

Mier, a fire fighter, has been in the Navy since June, 1987. Before the Persian Gulf crisis, the Mier family was hoping to see Patrick for Christmas.

Patrick is the son of Sally and the late Ralph Mier of Beaver Creek Township.

This makes 13 known military personnel from Crawford County to be sent the Middle East.

The 56 men from Camp Grayling's 1438th Engineer Detachment are still waiting to be called to active duty.

MAJ Jerold Foehl explained that the only change in their situation is that following the unit's scheduled weekend drill, September 8 and 9, eight persons of the advance party returned home to wait for call-up orders. The two remaining members of the advance party are full-time National Guardsmen attached to Camp Grayling.

MAJ Foehl speculated that this change could be occurring either because the unit has completed the work necessary to make the unit ready to move out or because the tactical situation has not developed to the point where the entire unit is needed.

"For the time being, it's back to routine business," said MAJ Foehl, "or as routine as life can be when at any moment a call

could pull them away from their families and jobs."

MILITARY PERSONNEL AWAIT "MAIL CALL"

Some of the parents of these servicemen have been calling friends and classmates encouraging them to write to their friends overseas.

During a recent CBS news special, service personnel were asked what they needed most and repeatedly the answer was "mail." The program showed several servicemen who received mail simply addressed to "Any Serviceman in Saudi Arabia" who were grateful to hear from someone from "home." "Home" now appears to be anywhere in the United States and "family" is anyone who lives at "home."

To assist persons who would like to write to local servicemen, a list of names and addresses will be printed at the conclusion of this article.

When putting together "care packages," Elaine Bobenmoyer, mother of a soldier serving in Saudi Arabia, suggested that sample size products be sent whenever possible because they are both small and lightweight, desirable features if the items are to be carried inside the servicemen's packs. Disposable items are best.

Some examples of items that might be welcomed are shampoo, toothpaste, razors, after-shave colognes, deodorant, sun tan lotion containing sun blockers, chap sticks, blistex, postage stamps, chewing gum and candy. Elaine suggested that self-addressed, stamped envelopes with one or two sheets of blank paper be included with mail from home. She said it might make it easier for the person overseas to write back.

According to Grayling Post Office Postmaster Ken Peck, all packages sent to Saudi Arabia must be accompanied by a U.S. Customs form 2066-A.

Postal restrictions for APO and FPO mail to Saudi Arabia forbid the mailing of any matter containing religious materials contrary to the Islamic faith, materials depicting nude or seminude persons, pornography or sexual items, unauthorized political materials, firearms, pork and pork by-products, all alcoholic beverages, and all video tapes.

Cassette tapes are permitted.

Mail is limited to First Class Mail weighing 12 ounces or less. Cost for this size parcel is \$2.40. It takes approximately

ten days for mail to reach the Saudi area.

To help make "home town" news available to those serving in the Persian Gulf area, the Crawford County Avalanche will be sending complimentary issues to all military personnel from Crawford County, not already receiving the paper.

It has been reported that Nolan Smith and Eugene Johnson are also serving in Saudi Arabia, but to date, the Avalanche has not been able to confirm this information or secure their addresses. Last reported, MCPO Richard Campbell was still awaiting orders to ship out for the Persian Gulf.

Readers who know of other military personnel from Crawford County serving in the Persian Gulf area are asked to call the Avalanche at 348-6811 with their names and addresses.

Clean-Up Continues After Wind Storm

TIDYING UP—Mrs. Ruth Aurand, 82, is shown throwing branches and twigs from her yard into a pit that will be burned later. She said emergency workers were very helpful immediately following the storm.

STORM DEBRIS—Wood piles are a common sight at Grayling Mobile Estates as residents continue to cut up hundreds of trees that fell during the August 27 storm.

Mrs. Ruth Aurand, 82, of Grayling Mobile Estates, and her neighbors have been working in their yards for two weeks, picking up debris and trying to clean-up the damage caused by the fierce wind storm that blew through the trailer park shortly after 8 p.m. on August 27.

"It started and ended so fast I didn't have time to be afraid," said Mrs. Aurand, who was alone when the storm hit.

Monday had been hot and humid and Mrs. Aurand was reading when the electricity went out and the wind began to blow.

"The wind sounded like there was metal hitting against the side of my trailer," she said. "I started closing the windows and by the time I got back to the living room and looked out, the trees were lay-

ing on the ground and everything was quiet."

Damage to Mrs. Aurand's home was slight compared to some of her neighbors. The storm toppled six big jack pines in her yard and damaged several smaller ones. It loosened the skirting around her trailer, blowing one piece away.

"We still haven't found that piece," she said.

Other damage included an assortment of dents on her trailer and garage and damage to her vegetable and flower gardens, all from falling trees.

"Some of the tomatoes are beginning to ripen," said Mrs. Aurand, "but the corn was flattened by falling trees."

The storm also knocked her electrical pole down.

All totaled, Mrs. Aurand turned in a bill for \$845 to her insurance company. She said she hasn't heard whether the damage will be covered or not. "As soon as the storm

stopped, I checked on my neighbors, Betty McFarlane and Marge Swetter," said Mrs. Aurand. "Then we went outdoors to look at the trees." Mrs. McFarlane and Mrs. Swetter were also alone during the storm.

"We were looking at the damage when a couple men came by and asked us to go back inside our homes," she said. "I guess they were afraid we might be electrocuted."

Damage to the mobile home park was extensive. One home owner said she lost 26 trees off her lot and another 24 trees. Several mobile homes were blown off their foundations and at least one roof had to be replaced.

Immediately following the storm one Crawford County Sheriff deputy described the scene as devastating, saying there were trees and power lines laying everywhere with pieces of aluminum hanging in the ones still standing.

Lehman Inmates Escape Sunday

Two inmates escaped from Camp Lehman's minimum security facility sometime between 6:30 and 8:15 a.m. Sunday, September 9.

Michael Earl Smith, 30, and Vanderrall Rutledge, 25, both of Detroit, were discovered missing by prison guards at the 8:15 a.m. prisoner count.

Before he escaped, Smith was serving six years and eight months to ten years for one count of assault less than murder, 10 to 20 years for armed robbery, and two years for two counts of possession of firearms. Parole was not possible until June 1, 1992.

Rutledge was serving three to 20 years for violation of the drug law for possession of crack cocaine. Rutledge was not eligible for parole until June 11, 1992.

A Camp Lehman spokesman said the two inmates escaped by going over a fence and he believed there was a ride waiting to take them to the Detroit area.

At press-time, the two men were still at large.

Camp AuSable Called 'A Little Spot Of Heaven'

By Nancy Lemmen

"A little spot of heaven in Crawford County" is how one guest described Camp AuSable, a jewel of a camp set back in the woods near Grayling, just off M-72 East.

The camp invited a group of supporters and business people from Grayling, Roscommon and Mio to an afternoon open house on August 15. Hosts included Bill Edsell, camp director; Dave Yeagley, program coordinator; and Brenton Bullock and Dick Scott, camp managers.

The camp staff arranged tours so that visitors could travel throughout most of the 800 acres via tractor-drawn wagons.

Stops included the Indian Village, Chapel in the Woods, boys' and girls' villages (groups of cabins which can house up to 240 campers), athletic center, barn and corral (which is home to 23 riding horses), sawmill (built by Al Stephan), and Fort Shellenbarger (a Western-style log fort).

Visitors were shown through the Merrill Y. Fleming Nature Center, which houses scores of bird, reptile and animal mounts, exhibits of rocks, minerals, shells, arrowheads, sand and 17 dioramas on the main floor.

The lower floor of the nature center has a projection room, and the top floor serves as an art gallery for wildlife prints and original paintings.

A recent addition to the nature center is a microphone hooked up near the outdoor bird feeders with speakers mounted indoors, so that visitors are entertained by the wide variety of bird sounds being made out the window.

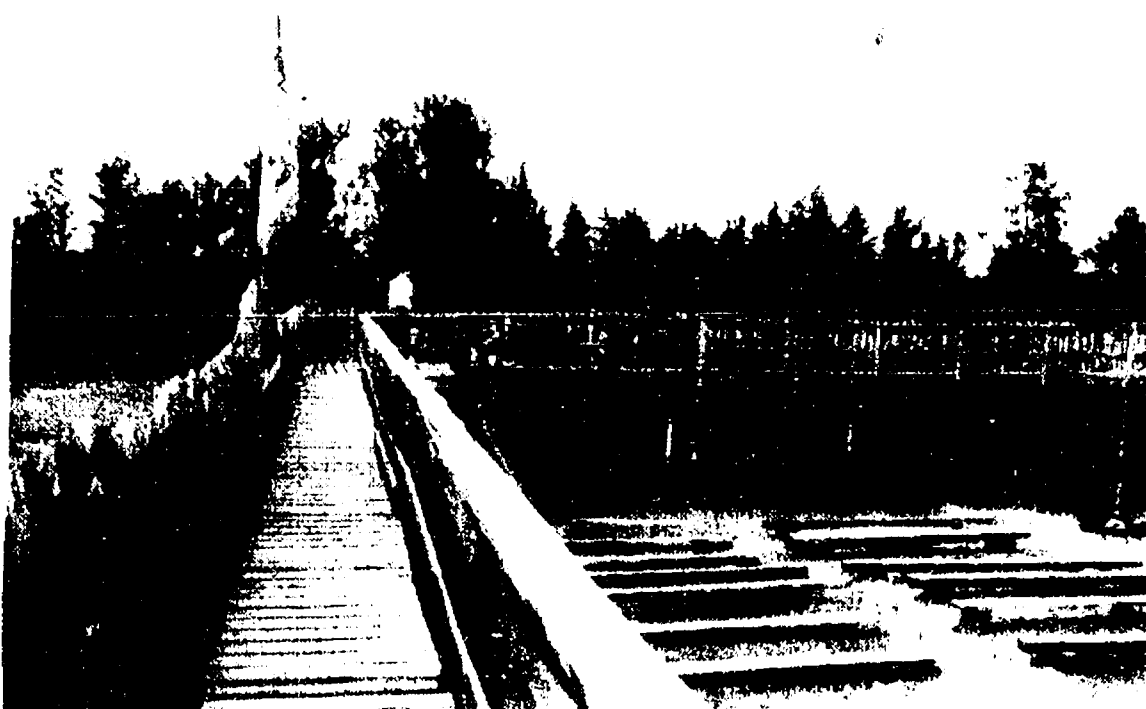

Visitors were also taken on a walking tour of the waterfront area, where 47 canoes, a Ski-Nautique boat and 10 sailboats are moored.

Next stop was the crafts building, which holds classes in ceramics, leather, basketry, Indian lore, t-shirt painting and rocketry.

Camp business manager Joyce Bullock and cook Rex Townsend served guests refreshments at an outdoor table overlooking the picturesque 120-acre Lake Shellenbarger.

Camp AuSable is owned and operated by the Seventh-Day Adventist Church. Open year-round, the camp hosts hundreds of young people and church groups from around the state.

People who wish to schedule a visit to Camp AuSable can call 348-5491.

VIEW FROM THE TOP—Fort Shellenbarger, made with logs cut at the camp's sawmill, has a parapet running on all four sides.

Recycling Corner

By Carol Wakeley

"Why should I recycle?" I hear this question a lot and this column should provide some answers and some interesting information. We already know that the landfills in the United States are in serious trouble. It is difficult to come up with new ones because of environmental concerns, and for health reasons no one really wants to "dump" near their home. In this year, 90% of all garbage is going to be dumped in landfills as it has been, they will be filled in half of all cities. So it makes no sense to help the problem by recycling. When we speak of recycling, we are talking about using post consumer waste. That is a product that has completed its intended use and has been discarded. Right now only 4% of the 165 million tons of post consumer waste is recycled.

Recycling involves four basic materials. First there is aluminum. Using scrap aluminum to make new requires only 5% of the energy that would normally be used to produce aluminum from bauxite ore. If just 24 aluminum cans are recycled, seven kilowatt-hours of electricity are saved. Don't just limit your recycling of aluminum to cans. Aluminum siding, storm doors, lawn furniture, and home appliances are recyclable.

Second, there is glass. Using recycled glass in glass production can save 30% of the energy that would be required if it was made from raw material. The reason energy is saved is because crushed glass, called cullet, melts at a lower temperature than the raw material. The amount of emissions are reduced too, being that glass made from sand, soda ash, or limestone gives off toxic emissions. Crushed glass bottles are used in home construction.

Third, is paper. It takes 75,000 trees to produce the press run of one Sunday edition of the New York Times. Recyclable paper includes corrugated boxes, papers from office and industry, cereal boxes, and the like. The higher grade paper from offices is used to make grocery bags, stationery, paper for magazines and books, facial tissue, paper napkins and towels, diapers and sanitary products. Higher grade paper refers to the following white papers: copy, computer, memo, ledger, stationery. Also manila folders and scratch pads. Papers not accepted are window envelopes, paper with adhesive tape or peel off labels, glossy paper, slick copies, cellophane, wax paper and plasticized paper. The paper industry has two symbols so you can recognize paper that is recyclable and products packaged in recycled material. Recyclable paper has three white arrows. If the product is in recycled paperboard the arrows will be on a dark background.

Fourth, is plastic. The recycling of plastics is rather new compared to other materials. Some areas limit their recycling to soft drink bottles and milk jugs. Recycled soft drink bottles can be used to make bathtubs, appliances, and fiberfill. Other plastics are turned into fences, park benches, docks, and flooring. Recycling plastics is complicated because of the many different types of plastics and each type has specifications for recycling. More and more plastic is now being coded so it can be sorted easily. Two pieces of plastic that look alike could have different resins in them and have to be recycled differently. There are many waste-to-energy plants that convert plastic into sources of fuel.

There are of course barriers in the area of recycling. Sometimes markets for recycled materials is low or none at all. Some materials cannot be recycled because of the way they are coated or mixed with other material. Glass that is not separated before recycling (according to color), has little value because of its poor quality and color. Coated and dyed paper is not recycled because of the expense of removing the dye. Certain plastics, especially PVC (Polyvinyl chloride), release toxic substances when burnt. Then of course, lack of convenience is a big barrier. Some people just won't recycle if it is not super easy for them.

The advantages however, certainly outweigh the disadvantages. Our waste to landfills is reduced. Taxes for solid waste management are reduced. The pollution potential is lowered. Recycling can be used to raise funds for organizations. The cost of producing new material from used is much, much less and saves on our natural resources. If we don't recycle, local governments may be forced to cut back on other things such as museums, libraries, and recreation. The average American produces five pounds of waste every day. Most of this garbage is not garbage at all, but reusable, recyclable items. A recycling program is becoming a necessity in each city for the solution to the solid-waste problem.

Letters to the Editor

We Need Competent Physicians And A Quality Hospital

To the Editor:

I have just recently learned that we are losing three more physicians from our area. I believe that a year ago, we were most fortunate in having seven doctors specializing in internal medicine on the staff of Grayling Mercy Hospital. As of November 1st, 1990, I believe we will not have any. They have all left or are leaving. What is the problem here?

The one common denominator that I can think of is our hospital. Approximately five years ago, this hospital had one of the best reputations in northern Michigan for excellent care. I don't believe that

you would find that today. Is it because of this that our doctors are leaving? Does this hospital cooperate with the doctors as to their needs and hours of private practice or do they just expect they can work day and night?

Perhaps the administrators of Grayling Mercy Hospital, which I understand are from Cadillac Mercy Hospital, would like to see our hospital closed as a functioning hospital and become just an outpatient clinic. What better way to accomplish this than to make sure our physicians leave the area.

And then what will we citizens of Crawford County do?

About seven years ago, one member of my family would have died without immediate surgery. There certainly was no time to go to Gaylord or Traverse City. What will happen to heart attack victims? A thirty to sixty minute delay in competent care can mean death. These are just two instances out of hundreds that can affect you or your family.

Also, what about the economics of this? How many people will be out of work if the hospital closes? How many have already lost their jobs as office nurses, clerks, receptionists, etc.? And, would you move to the Grayling community if it has in-

adequate or no medical care?

I have mentioned that we are going to be very short of doctors and have no internal medicine specialists to several acquaintances. The casual reply, "Ah, we'll get more," is not only apathetic but ignorant of the facts. I believe the Family Practice Clinic has been trying for several years to persuade doctors of quality to come to Grayling to practice. The only solution is doctors who come for a month at a time, rather like Rent-a-Car. This is surely not the answer to Crawford County's medical needs.

Hopefully, something will be done to correct this very

serious situation. It is critical! We need competent physicians and a quality hospital for our families, our friends, our neighbors and ourselves. I'm not only worried, I'm scared!

Northern Views

By Jon Thompson

There was a lot of excitement out there for the Detroit Lions before they started off the season with a dud against Tampa Bay.

The real football excitement around Grayling could center on the Vikings varsity team. Not only did Grayling thump southern rival Roscommon on the Bucks' home field to open the season, but Grayling whipped always-tough St. Ignace in the second game.

The Viking schedule shows them at Alcona this week, at Rogers City, home against Kalkaska, home against Whittemore, home against Onaway, at Harbor Springs, and home against Grayling.

Grayling has never been to the state football play-offs, and they've really never been close to earning enough points to qualify. It's too early to start talking about play-off points but after a start like this, it's not too early to start saying Grayling could have a fine football team this year.

The next two road games will be tough for the squad. I'm hoping they can build a winning streak, which will in turn build attendance at home games. It's been a while since a local sports team captured the town's attention.

Vinnie Johnson is coming back to town September 23. He put on quite a dribbling and shooting show last time he was here. What also impressed many Grayling residents was the way Vinnie handled himself around us common folk. He seems to be a decent guy and no one deserved it more than Vinnie when his final shot won the championship for Detroit at Portland.

Reading a Detroit Free Press column urging younger people to read was discouraging to say the least. If teenagers push little importance on reading, is it already too late to push them, cajole them, or plead with them to read more? The columnist wondered how these young people can make intelligent decisions if they would rather watch MTV than read a newspaper or book.

My generation was looked down on because many of us were not as well versed in the classics of literature as previous generations. Now some of this generation is looking down on the MTV generation.

Who's to say what each generation needs? I can say I'm worried about the loss of interest in reading. We may have been reading Vonnegut instead of the classics, but at least we were reading. Reading seems to be such a shortcut to a wealth of knowledge. It seems that would appeal to the younger generations. They're almost always looking for shortcuts.

Just joking, kids. Of course, they're probably not reading this anyway.

Let Us Now Turn Our Thinking Around

To the Editor:

Did you hear it? The slight rumble in the background at Camp Grayling as we were giving a moment of silence to the men and women whose names are listed on the "Moving Wall"? That slight rumble was the action of our National Guard gearing up to face whatever duty or action they will be called upon to serve in the very near future. They know not where they go from here. But be assured that they are ready, as are their families, to serve and protect our people, wherever they are.

As we were paying our respects to those names on the wall, I was thinking of London blitzes, Buchenwald, Pearl Harbor, Iwo Jima, Korea, and yes, Hiroshima, dirty

sweaty defence factories, rationing, and all the miseries that are a part of war. I was thinking of the families who lost loved ones back then. I was thinking of the people who complain about the "Week End Warriors," and "Let's get Camp Grayling shut down."

Let us now turn our thinking around and thank God we are still proud to be living in a land of free people who are willing to fight for that freedom.

Our sincere thanks to the men who built the wall and a special thanks to "Mom," who brought it to Grayling. She has a name on that wall.

Businesses Shouldn't Use Parking Space

Dear Jon:

Through you, I would like to pass on a thought. We are new residents to the beautiful downtown district of Grayling and I feel that the businesses are doing themselves, their customers, and clients a great disservice. Every day this week, from 1-75 to the railroad tracks, there were no less than ten vehicles of owners, managers and employees taking up valuable parking space. Sometimes it is an eight-hour monopoly. There is ample parking behind all areas of the downtown district. Consider the very short amount of time it takes any one of us to walk from a parking space in the back or from a remote spot (away from the entrance) in the parking lot.

Compare that to the many minutes customers and clients waste driving around and around looking and hoping for a space.

Before moving downtown, I was one of the very frustrated drivers looking for a space and never really appreciated the nice atmosphere and attractive facade of our main street. Remember, that all visitors to our area should leave with a good feeling and a positive experience. "A little walk a day keeps the doctor away." Be considerate of your customers and clients - it will pay off with increased sales and goodwill for all businesses.

Almanack

By Richard Millman

Face of Eastern Europe changing

(AUTHOR'S NOTE: The writer recently went on a 17-day trip to Eastern Europe -- an area formerly "behind the Iron Curtain." Traveling with the Nomads Travel Club out of Detroit, the tour visited Poland, Czechoslovakia, East Germany, and West Germany. Some impressions follow.)

IT'S DANGEROUS to form firm opinions after a whirlwind trip covering four countries in 17 days, relying for your information mainly upon English-speaking tour guides, taxi drivers, and hotel employees.

One conclusion is inescapable, however: Coming out from behind the Iron Curtain, after 40 years or more of central government control, into the freedom of self determination and self-reliance and a competitive market economy is an enormous task for the people of Poland, Czechoslovakia, East Germany, and other nations of Eastern Europe.

Up to now, the government has taken care of everything... with an iron first, sometimes. But generally speaking, the essentials of life were there.

Now, it's not so clear to these people what's going to happen. The uncertainty seems to be the biggest problem.

ANOTHER CONCLUSION also jumps out at a first-time European traveler:

I gained a new respect for the history and heritage of European peoples.

Poland, for example. Some Americans delight in mean-spirited jokes about Polish intelligence or character. Yet, Poland owns a long, strong, and proud history of power and influence, going back several centuries.

In the last couple hundred years, Poland has been kicked around quite a bit. Poland has had elastic borders, and first this country and then that one traded off this territory and that. In much of the 1800s, Poland hardly existed as a nation.

During World War II, the Nazis desecrated Poland, to the point of Hitler ordering the destruction of Warsaw as the war wound down. The mad Nazi dictator pretty well succeeded, too, in that demented, destructive order.

Then the Russians took over, -- first as liberators, then as dominators -- with their own brand of restrictive social order.

But the Polish people persisted. Warsaw is largely rebuilt, most of it along the lines of pre-war Warsaw. Reverence for the past, and the grandeur that once was Poland, is obvious.

And now, Poland is free again. Free and proud... and poor.

SMALL POLISH FAMILY FARMS, averaging 15 acres, are not efficient... but they are independent. Most appear to have a couple of cows, a flock of chickens, maybe some potatoes and some rye and some cabbage... enough to feed the family, but certainly not enough to market much of it profitably.

Work is still by hand, with very few tractors. Horses

pull plows and drags, men still use hand scythes for cutting the grain, cars are few in the rural areas and people walk to where they have to go, or travel in a horse-drawn cart. We saw women doing laundry in a stream.

In the south of Poland, farms are larger, reflecting expansive fields that once were Germany until the ever-shifting national borders shifted once again. On the larger farms, mechanization was more apparent.

The answer for agriculture, Andrew, one of our guides assured us knowingly, is for these 15-acre farmers to band together into cooperatives, and pool their resources for larger operations. But will they? Or is independence more important?

PRICES IN Poland are low. We had dinner for four one evening, including drinks and excellent food, for 168,000 zlotys -- or about \$16 American dollars. Vendors peddle hand-knit woolen or cotton sweaters for \$6 to \$8. A soft ice cream cone cost 8 cents. A new car -- a Polish Fiat -- would be about \$3 - 5,000.

But the average wage in Poland is about \$100 a month. That doesn't go very far.

The church plays a vital role in Poland. About 95 percent of Poles are Roman Catholic, and Pope John Paul II, who moved to Rome from Krakow, is a national hero of towering stature. In each town, the church is the center of social, religious, and political activity. The parish priest is an important man in all these areas.

Hoping to win popular support, the communists permitted the church to exist, and the church was at the basis of the revolution which finally developed.

SOME OTHER RANDOM observations about Poland (based on our six-day segment there, plus reading as much as possible about Poland, both before and since the trip):

We were warned not to drink the water. The Polish sewer system is not the best. Bottled mineral water was readily available instead.

In the cities, almost everyone lives in apartments. A one-bedroom flat would cost about \$15,000. There's a waiting list of 15 to 20 years.

We didn't see screens on the apartment windows. Weather was in the 80s during our trip. Most apartments had flower boxes in bloom.

Respect for the past is indicated by the cemeteries, usually neat and well decorated with new flowers on graves.

Cities are well defined. Once the city limit is reached, country begins... no suburbs.

Religious shrines along the roadsides are plentiful, usually with fresh flowers. Religious statues around homes are commonplace in the country.

Private enterprise in the form of roadside stands and flea-market-type stalls around the city streets and squares is a new adventure for Poles, as for the other Iron Curtain alumni.

The language barrier makes touring Poland difficult. Not many Poles speak English.

Emigration is a problem for the future. Polish leaders worry about it. How do they keep young people at home with such a stressed economy?

(NEXT: Some impressions of Czechoslovakia.)

Let's Talk About It By Joe Murphy

It seems strange but just when I decide that no one is reading this stuff and it is time to hang it up, someone comes forth with an encouraging word. I don't try to kid myself that it is good writing, but as long as folks enjoy it I'll do the best I can. I really appreciate the kind words folks have said from time to time.

I felt a great deal of disgust to hear that vandals have been busy in the old Pere Cheney cemetery again. What possible satisfaction can they get from destroying tombstones. I would like to see an all out effort to apprehend them. If and when anyone is caught at it they should be forced to pay dearly for their crime.

I guess we have a certain element among us that because they are not bright enough to create, feel they must destroy. How many times do we hear of vandals breaking into homes, schools and etc. simply to do as much damage as possible. Small children have a tendency to be destructive; perhaps they never advanced from that stage in life.

I often think of the miles and miles of railroad grades we have here in Crawford County. Most of them go nowhere other than a banking ground where they loaded out logs that were brought out to the main line or mills. I have walked many of those grades to their dead end. Some, of course, went on to points outside of this area. From Frederic there was a line that went to East Jordan. That was the line that David Ward had put in so that he could ship lumber from Deward, either by barge from East Jordan or the main line that passed through Grayling. The line that went to Lovells and Lewiston was built for one reason, to get lumber to market. That was the sole purpose of all the railroad grades in this area. Passenger and regular freight would never have justified the expense of building even the main line. The railroads were given alternate forties on each side of the tracks as an incentive to build the main line in northern Michigan. When you consider what it must have cost to put in a mile of track through a swamp you wonder how they ever got built. Even with the earth moving equipment of today it would be expensive. In the days of men and shovels and teams and scrapers, it must have been staggering. Of course wages were low in those days, but a dollar was worth a lot in those days.

My Dad always claimed the most money he ever made was working at the old DuPont plant that was located just south of Grayling during World War I. He got \$2.22 a day, but a quarter would buy three pounds of steak in those days. Renting a house cost five dollars a month so his wages went a long way back then. Well, what goes around come around and maybe times like that will return.

Animal Shelter Receives Assistance

To the Editor:

Two functions were recently held to benefit the Crawford County Animal Shelter.

On Sunday, Aug. 26, Milltown Groomer sponsored "Dip N Drip" day. Several pets came to be bathed, dipped, and have their nails trimmed. The rain barely slowed things down and \$270 was made to help our homeless friends.

On Sat., Sept. 1, a bake sale was held. Hot dogs and pop were sold. The results were a whopping \$403.80 for the shelter.

Thanks so much to those of you who donated your time, baked goods, etc. Many

thanks to Janet, Tim, and kids, Drs. Casler and Mesack for the dip, to Greg and John for the donation of the fliers, and to Bruce, Janet, Kim, and Sonie for the help at the bake sale.

The profits have pushed us over our goal. Soon everyone will see a fresh coat of paint and the addition of outside runs at the shelter. Without all of you the improvements could not happen. It has taken 1 1/2 years to reach this goal and we're anxious to start working toward a new one now.

Can't Wait For Next Reunion

Dear Class of 1970,

I just wanted to thank all of those classmates that made this such a memorable reunion. Those who didn't attend don't know how much they missed. I for one had forgotten how much I missed Grayling.

It was wonderful to see old

friends and their spouses, re-live old pranks, and create new memories. I can't wait for the next one in five years.

Thanks for all your hard work to make this a perfect weekend.

**The last thing you need
now is a problem with
your homeowners insurance.**

Home, sweet home. Sometimes it's difficult to keep it that way. And the problem with homeowner's insurance is you never know how good it is until the roof caves in. Then it can be too late. A Homeowners policy from Auto-Owners offers you replacement cost coverage on your home and personal property. Some homes qualify for optional Guaranteed Home Replacement Cost coverage. And the great news is...this one encompassing policy may cost you less than the coverage you have now because Auto-Owners offers several discounts and rating advantages. There's no place like Auto-Owners when it comes to Homeowner's protection. Just ask your "no problem" agent!

Class of 1955 Holds 35th Reunion

On August 11, 19 members and their spouses enjoyed a get-together at the home of Jim and Pat Failing on the AuSable. A delicious dinner of steak, salad, beans, and bread were enjoyed by all. A great deal of visiting and "remember when" were the topic of the evening.

Those in attendance were: Georgianna Lutz Campbell of Fife Lake; Frank and Nancy Lowe Ellis of Lewiston; Clarence and Nancy Colleen of Biddle of Indianapolis; Chuck and Judy Munsie Keway of Fenton; George and Jean Malloy Phillips of Mt. Clemens; Emil and Tish Niederer of Traverse City; Jim and Wanda Yoder Puskala of Eau Claire, Wisconsin; Jay and

Clara Nill DuBay of Cocoa, Florida; Beatrice Kennedy Dick of Grand Haven; Junior and Sandy Newell Hose of Houghton Lake; Ruby Canfield McDougall of Wayne; Tom and Sarah Lamm of Clarkston; Shirley Matthews of Novi; Larry and Denise Ashton of Saginaw; Larry and Dee Balch of Tawas City. Those from Grayling were: Jim and Linda Dannenburg; Bill and Lila Bunker Sellers; Marilyn McMillan Root; and Jim and Pat Thompson Failing.

This is the first year that no teachers were able to be in attendance. A good time was reported by all and we'll be looking forward to the next five years.

Lovells News

The following folks from Lovells walked the Mackinaw bridge on Labor Day: Mr. and Mrs. Marvin Wikoff, Mrs. Millie Haggan, Mrs. Pat Force, Mrs. Alice Campau and daughters.

Mr. and Mrs. Matt Caid and sons from Three Oaks, spent the weekend with his grandmother, Mrs. Ruth Caid and his brother Tim.

Mrs. Marvel Armstrong is a patient at Mercy Hospital in Grayling. Mrs. Edith Maki is a patient at Northern Michigan Hospital in Petoskey. We wish them both a speedy recovery.

Bike-A-Thon Riders Needed

Coordinator Mrs. Sue Hagle today called on all Crawford residents to join the St. Jude Children's Research Hospital Wheels For Life Bike-A-Thon slated for Sept. 29, from 10 a.m. to 2:30 p.m. at 608 Ottawa St.

Volunteer workers and riders are needed for this Bike-A-Thon to raise funds for the world famous research center in its battle against childhood cancer and other catastrophic childhood diseases. "We're looking for riders and helpers who will contribute their time and talent to help children live. We really need lots of riders, since they are the ones who can make this Bike-A-Thon successful," Mrs. Hagle said.

In the Wheels For Life Bike-A-Thon, riders ask sponsors to make a donation based on each mile completed. All riders turning in money will receive a certificate. Those who raise \$30 will get a certificate and a special St. Jude T-shirt. When \$75 is raised, the rider receives a barrel tote bag as well as the certificate and T-shirt.

Contact Mrs. Sue Hagle at 348-8581 for details.

By Deb Allen
Chamber Director

The Grayling Chamber recently held its Quarterly Legislative Forum. The Chamber-sponsored legislative meetings were initiated to encourage communication between all levels of government, from the local township level to our county and state legislative representatives. The meetings are usually held the first Friday of the month, with the most recent one being held this past Friday, September 7. Key concerns identified among the various Crawford County officials were the limited availability of developable land in our community due to state land restrictions, and the need for expansion and upgrading of the current roads and bridges in the Crawford County area.

Crawford County is unique throughout Michigan in that such a high percentage of its geographic area is state or federally owned. In fact more than 80% of Crawford County falls into one of these two categories. Land use taxes generated from these properties only moderately exceeds \$30,000 annually, causing restraints on local educational, economic and growth opportunities.

The issue of land availability ties in directly with economic development and the need for a better road system in Crawford County. Various projects and proposals were discussed at the recent Legislative Meeting, and in fact, a special meeting will be held within the next month to specifically address current funding opportunities for transportation projects proposed by County Commissioner Robert Nelson and the Transportation Committee of the Grayling Regional Chamber of Commerce.

merce. Numerous county and state officials will be invited to attend this upcoming meeting.

The Grayling Regional Chamber also reminds you to make arrangements to attend the upcoming "Annual Chamber Ball" scheduled for Saturday evening, September 22, in the Officers Club at Camp Grayling. For more information on Chamber programs and events contact the Chamber office at 348-2921.

H & R Block, has been in the Grayling area for some time, located on M-72 East and Huron Street, also known as Milltown Corner, but it has a new owner-manager, Susan Leyland.

Susan has over five years tax preparation experience with the H & R Block network. Prior to coming to Grayling she was the Office Supervisor of the Sault St. Marie and Gaylord H & R Block offices.

The new H & R Block manager is dedicated to quality and states, "I am committed to see that every client will pay the lowest possible tax." At H & R Block, Susan, along with four other consultants, offer year round tax services, as well as, tax return preparation assistance for individuals, farmers, students, military personnel, senior citizens, and businesses. Tax Training Classes are also offered through the Grayling office, with classes starting the week of September 10, 1990. An additional special program will be a free work-shop, to be offered this fall, to assist the Grayling fire victims compile the information on educational and family management opportunities.

Future plans for Susan is to achieve her licensing as an "H & R Block Enrolling Agent," this would allow her to officially represent clients during tax audits.

If you are interested in any of the tax classes or services of the Grayling H & R Block Office, call Susan, Monday through Friday, from 9 a.m.-6 p.m., or on Saturdays from 9 a.m.-5 p.m. at 348-8978.

The last of June, Jim and Pat Failing and John and Betty Failing spent a few days in Nashville. They enjoyed Opryland and a tour of the city by night, including Printer's Alley and the Boots Randolph Club.

On July 5 Jim and Pat Failing, accompanied by Mary Ann Calkins, drove West. They took Mary Ann to Green River, Wyoming, where she visited with her son, Randy and family, for ten days. Jim and Pat continued on to Utah and Colorado where they enjoyed jeeping in the Canyonland National Park, white water rafting on the Colorado, and visiting the cliff dwellings near Cortez. Another brother, John and Betty Failing, picked up Mary Ann in Green River and all joined Jim and Pat in Cheyenne for Cheyenne's Frontier Days, where they enjoyed several shows and the rodeo. John, Betty, and Mary Ann came home via the northern route while Jim and Pat came by way of Hannibal, Missouri, to participate in some of the Mark Twain activities.

The last week of August, Jim and Pat Failing journeyed to the Mill Creek Historical Park near Mackinaw City and then took a trip to Greenfield Village to spend several days.

Homer and Lillian King were very pleasantly surprised by a telephone call from Germany congratulating them on

their 49th wedding anniversary which fell on August 31, 1990. The callers were their grandson and wife, David and Kyle Gardiner, who are stationed at Hahn A. F. Base in Germany.

Bill and Jane Rosin of New Mexico were in the Grayling area recently where Jane visited former friends and Bill enjoyed the new holes at the Grayling Country Club. They were visiting her brother, Roy Milnes, and family in Roscommon and were going to Clare to visit her aunt, Sal Hubel and husband.

Almost sixty members of the Failing family enjoyed a reunion on July 4 at the James C. Failing home on the backwaters of the AuSable. Those coming from out-of-town included: Gary, Mike, Chad, and Jeff Calkins of Mio; Carroll and Pat Scott; Ed and Laura Scott, Jeff, Jenny, and Justin; Steve and Linda Scott, Megan; all of Gaylord; Sandy and Bob Parrot of Houghton Lake. Those from Grayling were Mary Ann Calkins; Rich and Julie Calkins; Abby; Greg and Beth Calkins; Kristi;

Margaret Jensen; Martha Austin; John and Betty Failing; John and Gail Failing; Suzanna, Angela, and Jennifer; Jim and Pat Failing; Otto; Beth Wakeley, Melissa, Cy Aaron, Stephanie, and Jessica; Floyd and Betty Millikin; John and Sylvia Millikin; Christopher, Tammy, Jaymie, and Jim; Ron and Deb Calkins, Brian, and Brent; Dave and Kelly Failing, Tom, and Andy. The second birthday of Andy Failing, son of Dave and Kelly, was celebrated. Besides enjoying the

food and visiting, a hot volleyball game was played by the younger set.

The Reorganized Church of Jesus Christ of the Latter Day Saints held a baptismal service at the Elmer Fenton cottage at Lake Margrethe recently. Baptized were Timmy Ormsbee, son of Brenda and Dennis Ormsbee, John Fowler, son of Stuart and Cindy Fowler of Gaylord, and Aaron Campbell, son of Dan and Deb Campbell.

By Deb Allen
Chamber Director

The Grayling Chamber recently held its Quarterly Legislative Forum. The Chamber-sponsored legislative meetings were initiated to encourage communication between all levels of government, from the local township level to our county and state legislative representatives. The meetings are usually held the first Friday of the month, with the most recent one being held this past Friday, September 7. Key concerns identified among the various Crawford County officials were the limited availability of developable land in our community due to state land restrictions, and the need for expansion and upgrading of the current roads and bridges in the Crawford County area.

Crawford County is unique throughout Michigan in that such a high percentage of its geographic area is state or federally owned. In fact more than 80% of Crawford County falls into one of these two categories. Land use taxes generated from these properties only moderately exceeds \$30,000 annually, causing restraints on local educational, economic and growth opportunities.

The issue of land availability ties in directly with economic development and the need for a better road system in Crawford County. Various projects and proposals were discussed at the recent Legislative Meeting, and in fact, a special meeting will be held within the next month to specifically address current funding opportunities for transportation projects proposed by County Commissioner Robert Nelson and the Transportation Committee of the Grayling Regional Chamber of Commerce.

merce. Numerous county and state officials will be invited to attend this upcoming meeting.

The Grayling Regional Chamber also reminds you to make arrangements to attend the upcoming "Annual Chamber Ball" scheduled for Saturday evening, September 22, in the Officers Club at Camp Grayling. For more information on Chamber programs and events contact the Chamber office at 348-2921.

Grayling Smashes St. Ignace 27-6

St. Ignace Stops JVs

Outstanding defensive play was largely responsible for the Grayling High School varsity football team's 27-6 victory over the St. Ignace Saints on September 7.

Senior Jim Liberty, junior Scott Hartman and senior David Teddy were the lead-

ing tacklers, said Head Coach Don Stowers. Defensive back Liberty, he added, made 11 tackles and intercepted a Saints pass for the final 70-yard touchdown.

Additionally, senior Mick McKinney "closed the trap down real well on his side of

the line."

Probably the most important defensive play of the game came early in the 1st quarter on the St. Ignace two-yard line.

With the Saints "just about to go on top," explained Stowers, senior safety Matt Branch "tackled their quarterback who

was attempting a 'bootleg play,' saw the ball in the guy's hands and took it away from him."

Senior Andy Barkway made another key defensive play in the 1st quarter. On the Saints' first possession, the defensive back stopped a long gain which Stowers said would have resulted in a TD.

Offensively, the Vikes "once again played a very stable game, with a couple of mental lapses on pass protection," said Assistant Coach Mike Branch.

Guards Hartman and senior Max Prosser and tackle Andrus had strong offensive blocking. But "we didn't have the ball very long because we had big scoring plays from the defensive unit on pass interceptions and punt returns."

McKinney made the first three touchdowns. At the end of the 1st quarter, he scored on a 65-yard pass from Branch. His 2nd and 3rd TDs were made on punt returns in the 2nd quarter — the 2nd a 90-yard run and the third, 75 yards.

"But it wasn't just a one-man effort," protested McKinney. "Blocking had a major part in it, too."

Stowers added that offensive fullback Dana Mirate's blocking was "vastly improved" over last week's

Scott Hartman

David Teddy

game.

Said Stowers, "We should have scored at least two more TDs, but the receivers dropped the passes."

Branch kicked three for three for the extra points; but missed a two-point conver-

sion on the final attempt.

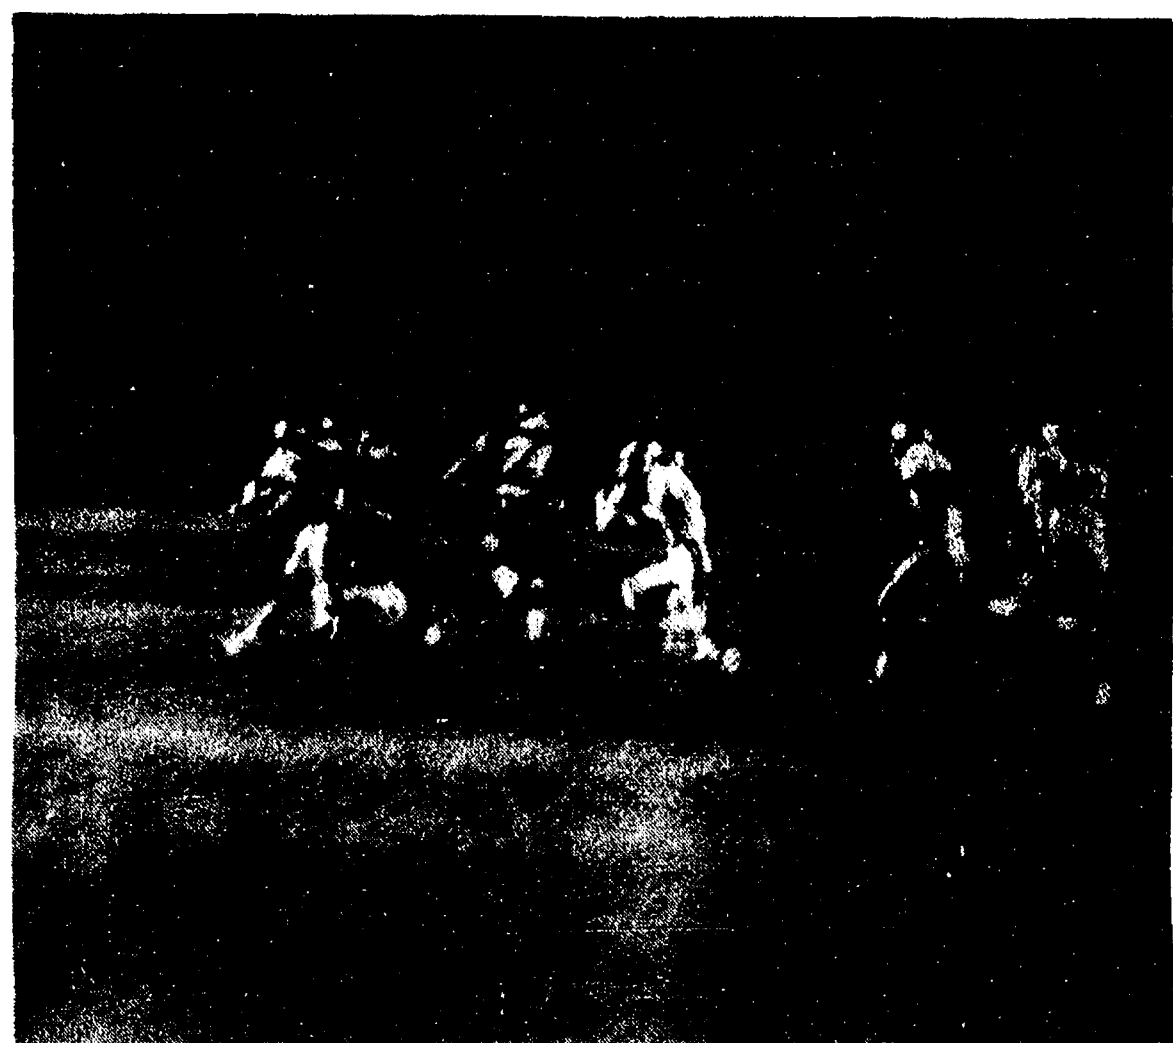

The varsity team's next two games are on the road — at Alcona on September 14 and at Rogers City on the 21st. Kick-off times are both 7:30 p.m.

The Grayling High School junior varsity football team lost to St. Ignace on September 6.

Said Coach Chuck Spencer, "St. Ignace was a tough team. They were big and quick, and they outplayed and outthrew us." He continued, "Our offense played pretty well. They

moved the ball very well, but our defense was unable to stop the Saints."

The JV team's record now stands at 1-1. The Vikings will attempt their second win on Thursday, September 13, when they play Alcona at home. Game time is 6:30 p.m.

GOOD SHOW—Mick McKinney is shown running around the end. He made the Vikings' first three touchdowns during the first half last Friday against an always tough St. Ignace team.

Sports

Punt, Pass, & Kick Competition Returns To Grayling Sept. 22

Punt, Pass & Kick is alive and kicking in the state of Michigan! The popular foot-

ball competition for youngsters ages 8-13, begins local competitions in September and continues through October. The Grayling Recreation Authority will conduct its local competition on Saturday, September 22, at 10 a.m. at

the football field in Grayling. Advanced registration is advised.

Punt, Pass & Kick is a football competition that allows a youngster to show their talents in passing, punting and place kicking with scores based on distance and accuracy. There is no cost for the participants. Age classifica-

tion is as of November 1.

The top finishers at the local competition will advance to region IX in mid-October. The top finisher at regional competitions will then advance to the state championships at the Pontiac Silverdome as part of a Detroit Lions football game.

The Michigan Punt, Pass &

Kick competition is sponsored by Pizza Hut restaurants. To register and for further information, contact the Grayling Recreation Authority at 348-9266.

This year's contest will run all 17 weeks of the NFL season. There will be a winner each week plus one overall winner.

Here's how to be a weekly winner:

1. Write your prediction for game 1 on entry form
2. Write the advertiser's name on entry form for game 1
3. Fill out rest of entry form this way including your two tie-breaker predictions (total points scored by both teams)
4. Return the entry form by 5 p.m. Friday to the Avalanche
5. The person with the most correct picks wins the weekly prizes

Here's how to win the overall prizes:

1. You must turn in an entry form filled with picks for all 17 weeks of the contest
2. You'll receive points each week for your

correct picks. Most games will be worth one point. (All games for week 2 are worth one point each.) Later in the season, certain games will be designated as bonus point games worth more than 1 point. The biggest bonus point game will be at the last week of the contest -- giving everyone who has played in all 17 weeks of the contest a chance at the overall prizes

Vikings Open Conference Play With Victory Defense Wins For JV Girls

"It was great winning the first game in our conference," said senior forward Nicki Morrill about the Grayling High School girls varsity basketball team's 43-37 win over Onaway on September 6.

"The Onaway game saw scoring support from most of the team, which is vital if the Vikings are to be successful in 1990," said Coach Howard Lehti.

Nicki Morrill led the team with 12 points; Claudine Allen scored eight points (including two three-point shots); Lisa Jo Barber, seven; Shannon Hinds, five; Heather Stephenson, four; Elissa Cox, four; Angie Mertes, two; and Andrea Austin, one.

Those were the first varsity buckets scored by sophomore Cox and freshman Mertes, said Lehti. He added, "Elissa made a couple of nice 17-foot shots when Grayling needed some offensive punch."

Junior Austin also "gave us some very valuable minutes — both defensively and offensively on the boards — coming from off the bench."

Stephenson was high rebounder with 10. Morrill followed closely with nine. Barber and Hinds each had three, and Brenda Moshier had two.

"We weren't ready for two physically fought ball games

Heather Stephenson

in the same week," Lehti said, in reference to the win in Onaway and the team's loss to Roscommon on September 4.

"It was a battle zone under the boards," he continued. "Even though the teams matched up heightwise, Onaway was much more aggressive, both defensively and offensively. They never gave up, even though we led the entire game."

Nevertheless, Lehti had his team employ a full court press that kept Onaway from implementing its half court offense. "The more accurate the scouting reports, the more likely our game plan is to succeed," he explained, crediting his "dedicated staff for holding the whole thing together."

Scouts for the GHS team include: Mark Hartman, 9th grade coach; Jim Parker, 8th grade coach; Harold Mertes,

Nicki Morrill

7th grade coach; and Dave Stephenson, team member Heather Stephenson's father.

In regard to the Roscommon game, Coach Lehti said, "It was hard fought. If this is any indication of how our year's going to go, Grayling will have to be mentally and physically prepared for every game" to be successful.

The Vikings fell to Roscommon, 41-35, in their season opener. "But," he continued, "take away the last minute, and it was an even ball game. We had a few mental errors that simply can't happen for our team to be successful against Roscommon, which was ranked 6th in the state last week."

Stephenson was high scorer on Tuesday night, with 19 points; Morrill scored ten; and Allen, Moshier and Michelle Parker each had two.

While Lehti feels that re-

bounding is still a weak point with this year's team, Stephenson racked up 14. "She did a nice job," he said. "Heather is an important part of our rebounding and offensive game."

Morrill followed with six rebounds and Hinds had three.

The Vikings made 60 percent of their free throws, which "kept us in the ball game," said Lehti. "But our goal is 70

percent."

In spite of the loss, the GHS game plan seemed to keep the Bucks "at bay and out of their offense all night."

"Usually," Lehti said, "Roscommon's outside shooting is good, plus they have two girls at 6 six providing inside scoring threats." But the Grayling defense kept the RHS guards confused during

most of the game.

In regard to the Roscommon rematch on September 11 and the Boyne City contest on the 13th, Lehti said, "It will be important to see how Grayling plays on the road."

"They are two non-league games, which should make Grayling stronger, as we experiment to find out the strength of the bench," he concluded.

GO TEAM! GO!—GHS cheerleaders had no problem keeping spirits high Friday night. The Vikings led St. Ignace throughout the game, winning 27-6.

The Grayling High School girls junior varsity basketball team "played excellent defense" in its 28-24 win against Onaway on September 6, said Coach Dallas Hudson.

"We were outsize, but we worked hard. Offensively, we didn't have a very good game, but we came around in the second half," he continued.

Hudson praised the efforts of sophomore Heather Millikin, who "was the strong point of the whole ball game," and Sarah Mlecek, who "came on strong and did an excellent job in the second half."

Millikin and Mlecek were high scorers, with eight points each. Valorie Schans scored five; Mandee Mlecek, four; Amy Vandecar, two; and Darcy McCurdy, one.

Schans led in rebounding, with nine. Sarah Mlecek had seven; and Millikin and McCurdy each had five.

The junior varsity Vikings lost to Roscommon in the season opener on September 4.

"We were really nervous," said sophomore Heidi Craigie, "because of the first day of school and the first game. But even though we were behind the whole way, we didn't give up."

Coach Hudson agreed. He attributed the loss to "first game jitters," and added that the Roscommon squad had a game under their belts before coming to Grayling.

High scorer was Craigie, with eight points. She was followed by Mandee Mlecek, with seven; Amy Vandecar and Gina Lupp, each with five; and Schans, with three.

Vandecar, who had a good all-around game, led the team with 11 rebounds. Sarah Mlecek followed with five.

"We played excellent defense," said Hudson. "Heather Millikin had a super defensive ball game."

However, the JV Vikes made only 13 of their 53 free throw attempts. "That's why we fell short," Hudson concluded. "The girls were real nervous the first half, but they dominated the second."

The junior varsity basketball team played Roscommon a second time on September 11, and will travel to Boyne City on Thursday, September 13. Game time is 6:15 p.m., with the varsity game immediately following.

FOOTBALL Contest

Fred Krolikowski, of Grayling, was our first weekly winner in the Avalanche Football Contest. With 16 right, Fred wins all the weekly prizes listed on page 8. Coming close with 15 correct picks were John David Junttila, Mike Shearer, Jack Sieloff, Marge Roper, and Christopher Callahan.

Out of 140 entries the first week, only one person, Pam Jozca, correctly picked Tampa Bay to beat Detroit. The Lions screwed up 139 out of 140 persons in the contest. When are you going to learn about the Lions?

A person with the initials L.R. got the most wrong this week -- 14 wrong out of 20. (We won't ever mention names here of the last place finishers, they've already suffered enough.)

So better luck this week to most of you. All the weekly prizes listed will be awarded to the first place finisher each week. We'll list leaders in the overall contest beginning next week. All 140 persons entered this week are eligible to keep playing for the overall prizes.

Last week's winners:

Marge Sneath, 1990 president, presided at the business meeting. Election was held for new board members for the 1991 season with Vonnies Waskins, Joyce Sorenson, and Marge Smith winning seats. They replace three board members who have served their three-year terms, Lynda Hetrick, Marilyn Fick, and Nancy Hoffman. Joan Powell will be the new president for the 1991 summer season.

Party was held September 9 at the club. In spite of a heavy downpour several times, most of the couples simply bided their time under umbrellas and waited for the sun to come back out to finish the round. Winners in the couple's "best ball and string" play were Al and Marge Sneath with a 30.

Four couples tied for second place with a 31: Jerry and Dorothy Walker, Bill and Joyce Worden, John and Barb Harmer, and Fred and Jean Arwood. Closest to the flag on #2 was Gloria Nielson and closest to the flag on #8 was Clyde Anthony. Hosting the party were Elsie and Don Jansen and Ralph Davison. The delicious chicken dinner was catered by Bear's Country Inn.

Barrett, Czuba Speak Vows

Frederic News

On August 10, 1990, Dale Czuba and mother, Arlene Czuba flew to California to attend the wedding of Scott Alan Czuba to Carla Susette Barrett. They were married on August 11, at the L.D.S. Chapel in Roseville, California.

Scott's best man was Dave Williams of Grayling who is stationed at McClellan Air Force Base. Carla's best friend

Carla was her maid of honor.

A reception followed at the home of her parents, Mr. and Mrs. Fred Barrett in Roseville.

Prior to the wedding Scott gave his father and grandmother a tour of Beale Air Force Base where he is currently stationed. On the 12th Scott and Carla accompanied his father and grandmother on a scenic tour to Lake Tahoe.

Scott and Carla are living temporarily with her parents.

Engagement Announced—Mr. and Mrs. Gene Rauch of Grayling are pleased to announce the engagement of their daughter, Karen, to Joe Smock, son of Mr. and Mrs. Robert Smock, also of Grayling. Karen is a 1986 graduate of Grayling High School, 1988 graduate of Northwestern Michigan College, and currently attending Central Michigan University pursuing a degree in Elementary Education. Joe is a 1985 graduate of Grayling High School and is currently employed at M.A.T.E.S. of Grayling. A August 3, 1991 wedding is planned.

Dandy Passes National Occupational Competency Exam

Mark Dandy, owner of Dandy Construction, recently completed and passed his exam for Carpentry at the Ferris center. He had to complete a three hour written exam and a comprehensive six hour performance assessment to qualify for academic credit toward vocational teacher certification at Ferris State University.

Ferris State University will again host the National Occupational Competency Assessment Examinations on November 10, 1990. Registration for the assessment is due by October 10, 1990.

The service helps individuals who are interested in pursuing a vocational teacher education program in one of the state colleges or universities. A wide range of competency assessments are offered three times a year which are used to equate valuable work experience with academic credit.

Sunglasses for Windows

It's like putting sunglasses on a window, says David Bibler, about applying Llumar, solar-controlled window films.

The Micro-thin, polyester-mylar films are virtually invisible when properly applied to existing windows.

But the films block up to 80 percent of the heat in summer and retain up to 65 percent of the heat in winter, says Bibler, co-owner of Quality Window Tinting in Traverse City, Grand Rapids and Kalamazoo, with his wife, Judy.

Three types of films — reflect-

ive, non-reflective and Low E series are available, all of which virtually eliminate the ultra-violet rays which cause sun rot, sun fading and sun glare. These films are all covered by a 7-year warranty.

Quality Window Tinting also installs solar control film on motor homes and passenger vehicles. All installations come with a lifetime guarantee.

Wendell Hoover

Park Interpreter, Hartwick Pines State Park

This will be your first invitation to attend the September 20th meeting of the Friends group at the Hartwick Pines.

It won't be an ordinary business meeting if that is what you are thinking. Charlie Conn from Grand Island has accepted our invitation to present a slide program he has developed pertaining to the railroads. They formed a network of transportation for logs and other forms of merchandise throughout Northern Michigan. Many of these railroads, along with their names, have disappeared from our vocabulary and the scene. Mr. Conn has spent considerable time collecting photographs, and in research, to put this program together. He is willing to share this information with you, so plan on being at the park headquarters at 7:30 p.m. on September 20th.

Perhaps you just might be interested in joining the Friends of the Hartwick Pines. The cost is minimal, plus your ideas and help would let the Friends group continue to be

of much assistance to the park, which ultimately helps the economy of the surrounding area.

You will not need a reservation for that evening, but if you need additional information, call me at 517/448-7068.

Pet Care Tip

The National Humane Education Society recommends that you have your dogs and cats altered to prevent unwanted births. The present overpopulation of companion animals is responsible for the millions that are euthanized because they are unwanted and unvalued.

Verse or Worse

By Joe Murphy

They Still Live

Many times I've heard it said
That no man is truly dead
Until the last person that remembers him in life
Has also left this world of strife

As long as one mind can recall
The days when he walked straight and tall
He's still alive in someone's mind
Someone he touched and left behind

In my mind I often see
Those who were near and dear to me
Though they have been dead these many years
And the time of their passing brought me tears

I know there never is a day
But what I recall some of those who have passed
Away
Mom and Dad I often find
Alive and well within my mind

Again we live those days of yore
They walk and talk and laugh once more
Things are as they used to be
As they return in memory

Childhood pals that have long been dead
Still run and play within my old head
I am there to join in their play
Just as I was in that yesterday

Until I join them in heaven above
I'll continue to remember them with love
And if things go as it was planned
We'll meet again in the promised land

A Look At Our Past

23 Years Ago September 13, 1967

Crawford AuSable District schools opened this fall with a record enrollment of 1,376 students, an increase of 85 pupils over last year. This breaks down into an increase of 4 students at the Frederic Elementary School, an increase of 47 at the Grayling Elementary, and of 34 in the Grayling High School.

Doug Failing celebrated his tenth birthday Tuesday, Sept. 5, with several of his friends. All enjoyed playing games.

Word has been received that James Olson, son of Mr. and Mrs. Herbert Olson of Flint has returned from Viet Nam September 6th.

Mrs. Fred Niederer left Friday for Saginaw, where she will be staying with her son John's children, while the

parents are in Fargo, N.D., on business.

Larry Wilson, Pat Harwood, John and Bill Walker are enjoying a two-week fishing trip in Montana.

A number of men of the community have been enjoying Coho fishing on the west side of the state. Fred Koernke made the biggest catch with a 20 1/2 pounder.

Mr. and Mrs. Dean Tobin and family of Saginaw were here this weekend and enjoyed a family dinner at the Max Tobins, honoring Dean and Howie Tobin's birthdays.

The Fire Department was called Monday to a car fire three miles this side of Lovells and Saturday afternoon to a small fire near Animal Land.

The John Madills and Jennifer of Davison were visiting the Charles Madills and Bill Tobins Saturday and Sunday.

Peter Lovely has retired from the restaurant business after spending most of his adult lifetime serving fine meals. His restaurant, known as the "Green Front Restaurant," was sold the first of the week, to Mr. and Mrs. Al Carrievue, of Detroit, the new owners taking possession Monday. In the early lumbering days around Grayling, Pete and his brother Paul were famous as lumber camp cooks. As such, their fame spread over the North Woods area. Later, for a number of years Peter conducted the civilian mess hall at Lake Margrethe. In 1932, he opened a restaurant in the building next to the Alfred Hanson service station, which he has conducted almost continuously since. Pete has been enterprising and always a good citizen. He and Mrs. Lovely have raised a splendid family, one that is a credit to them. Now that Mr. Lovely has retired, he will enjoy the leisure that he so well merits. His successors are stepping into a well established business. They are experienced in the restaurant business. We welcome them and wish them the best of success.

Miss Wilma Feldhauser, daughter of Mr. and Mrs. Paul Feldhauser, is attending the Bay City Business College in Bay City.

Mr. and Mrs. Walter LaMotte are the parents of a boy, born September 6, weighing 8 pounds 6 ounces. He has been named Tommy Lee. Mrs. Rasmus Hanson observed her 99th birthday last Thursday in a quiet manner, surrounded by her family. In the afternoon, in accordance with an old Danish custom, friends and neighbors called to wish her a happy birthday. Mrs. Hanson received them all most graciously and

seemed keen to visit with them all. One outstanding quality of this fine lady is her interest in "the folks" - in their families, in what they are doing. She takes interest and pride in her household affairs, keeping in touch with daily happenings. Charities also receive her personal attention, which completes a really full life for one of her years. It is the wish of this community that as Mrs. Hanson enters the centenary year of her life, she may continue to enjoy her usual good health and happiness. May she be privileged to see lasting peace restored to her native land (Denmark), and to America, the country of her adoption.

YOUR EDITOR IS RETIRING—YES, that's it. Not because of having a lot of dough, but rather because there is an inevitable time when every man must lay aside his laboring tools. Rather than wait until old age forces us to quit, we decided that now, after 33 years as editor of the Avalanche, we had earned a rest. Of course, we must have something to do, also something to live on, so with our well established insurance, real estate brokerage and office supply business, we feel that we will have plenty to keep us out of mischief. While we have had a good many offers of purchase, we would be our successor. We hoped he would be a man who would fit into our community, and who would have pride in giving Grayling a good newspaper. While we don't feel that we have to apologize, still a change may be a good thing for Grayling. The lucky man to become your editor is Robert W. Strong, now managing editor of the Greenville Daily News. We ask our readers to please accept this as only a brief announcement, with a promise of further details to come later. The change

is scheduled to take effect October 2.

Fred Welsh has purchased the sawmill that has been in operation with the Kerry & Hanson Flooring Co. plant and is moving it to Marquette. Conditions for its continued operation here were not favorable. Mr. Welsh will operate the plant at Marquette for custom sawing. Leo Gannon, formerly of Grayling, will be the manager.

Clarence Stillwagon of Lovells tells about a 2 1/2 pound perfect tomato which he raised in his garden the past summer.

Mr. and Mrs. Don Gothro are receiving congratulations on the arrival of a daughter, Karen Jean born last Thursday at Mercy Hospital.

Mrs. Tressa Stephan left last Thursday to visit her husband Norval Stephan, F-2-c, who is stationed at St. Louis, Mo. She expects to remain until after his graduation from Naval Electrical School on Sept. 25.

Mrs. Paul Feldhauser and her daughter-in-law, Mrs. Herbert Feldhauser, left last Thursday to visit Corporal Herbert Feldhauser who is stationed at Lincoln Army Air Field, Lincoln, Nebraska. Cpl. Feldhauser was just recently discharged from the hospital there, where he had been a patient since July 2, recovering from a surgical operation.

Mrs. Elmira Heath has resumed her duties as teacher at the Beaver Creek School. Due to some repairs which were made on the building, school did not start until Monday, the 11th.

On the evening of Sept. 4, Mr. and Mrs. Earl Mathewson and Mrs. Norval Stephan were hosts to 40 friends and relatives of Lacy Stephan and Stephan (Bud) Jorgenson at Richardson Lodge, Pinochle, bunco and 'visiting' were enjoyed by the guests, also the lunch of home made ice cream and cake. The table was centered by a beautifully deco-

rated cake made by Mrs. Wellman Vallad (Zina Stephan). Pvt. Stephan is spending a 10-day furlough with his family, and "Bud" expects to leave soon for military service.

69 Years Ago September 15, 1921

Samuel Booth, employed at the duPont plant, met instant death when he caught his left arm in a winch or windlass winding itself about the axle, and was drawn in to the shoulder. Booth had been warned not to start the machine. He leaves a wife who was formerly Miss Irene Slingerland, daughter of Mr. and Mrs. J.B. Slingerland.

Friends here have received word of the marriage of Miss Marie Foreman, daughter of Mr. and Mrs. J.C. Foreman, to Harry Garrison, which took place in Grand Rapids. Both families of the young people, now residing in Bay City, were former residents of Grayling.

Sunday morning occurred the death of Mrs. Sarah J. Corwin at the home of her daughter Mrs. Celia Granger. She had been ailing for some time with heart trouble.

Mrs. and Mrs. Ervin Hodge and children and Mr. and Mrs. Floyd McClain and little son left Monday by auto for California, to take up their residence. Mr. and Mrs. Wilbur Fischer, parents of Mrs. Hodge, who have spent the past several winters in California owing to the ill health of Mr. Fischer, will leave Grayling Sept. 20.

Grayling Citizens Band furnished music for the Bay City fair Monday night and Tuesday all day. Carl Peterson acted as drum major. Emerson Brown was liberally applauded for two vocal solos with the band accompaniment. Harry Simpson acts as business manager.

Jehovah's Witnesses Attend Bible Seminar

Jehovah's Witnesses from the Grayling Congregation have returned from their semi-annual Bible training program. The two-day seminar was held Saturday and Sunday, September 1st and 2nd, at the Assembly Hall of Jehovah's Witnesses in Holt.

The local group assembled with over 1600 other Witnesses from northern Michigan.

Baptist Round Robin Starts Sept. 16

The Northern Michigan Baptist Round Robin missionary conference will be held Sept. 16-27.

It starts at the First Baptist Church in Frederic, Sept. 16 at 11 a.m. service with Rev. Jeff Thibadeau, talking about Brazil. Following service a pot luck dinner will be held. All are welcome. The 6 p.m. service with Duane Schen-

del will be about Mexico. Monday through Thursday, for 7 p.m. these topics will be covered: Sept. 17-Dr. Robert Mundy, Faith Promise Ministry; Sept. 18-Dr. Bob Doon, Global Baptist Mission; Sept. 19-Mark Liedtke, Ecuador; Sept. 20-Rev. Hubert Broeckert, Central Africa Republic. The public is welcome.

The regular meeting schedule resumes this week at the Grayling Kingdom Hall.

The Bible Speaks

From Calvary Baptist Church

Attacks On The Freedom To Learn?

"People For The American Way" has released a 1989-90 report entitled, "Attacks On The Freedom To Learn." They have accused parents and community leaders of the "Far Right" of "school censorship." Their Issues Director Donna Fowler said, "Instead of the 'three R's' would-be censors seem preoccupied with the 'three S's': swear words, Satanism, and sex." In Danville, CA, teachers fought such opposition and received court approval to use teacher discretion even in showing R-rated movies to high schoolers. (Yet, they would be denied admission to see the same film in a public theater even with their own parents?) Under "Challenges to Instruction" in Michigan we find eight books removed from Detroit school libraries for containing material on witch-

craft and the supernatural. The books were: "The Stars in Your Life" by Amy Shapiro, "After the End" and "Mad Scientists" edited by Isaac Asimov, "The Magic and Meaning of Voodoo" by Barbara Christensen, "Visions of the Future: Palm Reading" by Elizabeth Hoffman, "The Magic Cauldron" by Margaret O'Connell and "Curses, Hexes and Spells" by Daniel Cohen. "People For The American Way" believe the removal of the above books is an attack on the freedom to learn in public schools. In Grand Haven, MI, three books were challenged but retained by school officials: "The Headless Cupid," "The Witches of Worm" by Zilpha Keatley Snyder, and "America's Very Own Ghost" by Daniel Cohen. In Spring Lake parent objection to "Zork: The Malfestro Quest" in the Elemen-

tary school library was denied. Parents said it "introduces children to the occult and fantasy about immoral acts." In Wyandott a parent objected to "Dungeon of Darkness" by John Kendall for introducing children in elementary grades to "spell casting, divinations, sorcery, and other forms of witchcraft." Nothing happened because the parent did not file a formal complaint form. In Kalkaska parents and local clergy objected to a lesson on "meditation to be given in a high school English class, for being, 'religious' and similar to a hypnotic state in which 'New Age' doctrines can be introduced into a child's mind." The lesson was cancelled. With academic test scores falling across America, why must state school officials insist on defending the three

S's instead of concentrating on the three R's? Where was the opposition when the three Christian S's were taken out of the classroom: The Savior Jesus Christ, the Scriptures, and Supplication or prayer? The king of state education wears no clothes.

CHURCH DIRECTORY

To climb a mountain is a test and a challenge. Setting off to reach the pinnacle requires good equipment, proper clothing and training. It takes skill, physical fitness and determination to endure the harshness of the climb. Once invaded, the mountain throws obstacles in the path of the invader. As it is to say:

"I will not give up my silent majesty easily."

Many climbers have heard the voices of the mountain and experienced its anger. The howling winds, the bitter cold, lack of oxygen and exhaustion face the intruder who dares conquer it. But once conquered, the victory is sweet. Like the mountain, neither will God give up His silent majesty easily. Obstacles thrown in our path may make us falter and fail. But He gives us new strength with every new difficulty.

To reach God's summit is to climb heavenward. Seek His strength and refuge this week.

Pridnia Nominated At Grayling Holiday Inn

Last Sunday, Sept. 9, Republican executive committees from sixteen counties that make up Michigan's 36th Senate District met and responded to the call of G.O.P. State Chairman Spencer Abraham. The call was necessitated by John Engler's choice of Senator Connie Binsfeld as his nominee for lieutenant-governor in the race that will climax November 6th, general election day.

At 2 p.m. in Grayling's Holiday Inn conference rooms, former State Repre-

sentative John Pridnia, of Harrisville, won his parties' formal nod. Following a first round voice-vote, Kalkaska County G.O.P. Chairman Mel Hill motioned that an unanimous ballot be cast. That motion then carried, placing Pridnia's name on the soon to be printed November ballot, representing his party.

This huge Senate District reaches from Lake Michigan to Lake Huron, carving into the 9th, 10th and 11th U.S. Congressional Districts, from Manistee to Alpena.

County Delegates Attend Convention

On Friday, Sept. 7, and Sat., Sept. 8, Crawford County Republicans participated in the 1990 Republican State Convention at Cobo Hall in Detroit. Participating as Delegates on the floor were Joseph Callewaert and Pat Thomas representing Congressional District Ten, and George Emerson representing District Eleven. District Eleven includes the northern portion of Crawford County.

On Friday, the County Delegates under the leadership of Chairman Callewaert, and in concert with all other Delegates from counties in both Congressional District, were addressed by Representatives Bob Davis and Dave Camp.

Also attending, and seeking the support of the delegates were State Senate Candidates George McManus and John Pridnia. Both McManus and Pridnia are seeking election to open Senate seats.

Following Callewaert's nomination, Pat Thomas was unanimously elected to the convention rules committee, joining George Emerson, representing his District.

On Saturday, the convention was high-lighted by enthusiastic support for gubernatorial candidate, John Engler and his running-mate, Connie Binsfeld of Maple City.

What Consumers Want What consumers most want from firms delivering a service is reliability, but frontline workers can critically influence a customer's decision on which company to pick or whether to come back or not, says a Texas A&M marketing study. Also, the study revealed that customers want such employees to impart a little tea and sympathy as well as personal attention. Management may overlook such factors.

Michigan Strategic Fund Issuance Of Limited Obligation Revenue Bonds

On Behalf of Grayling Generating Station Limited Partnership

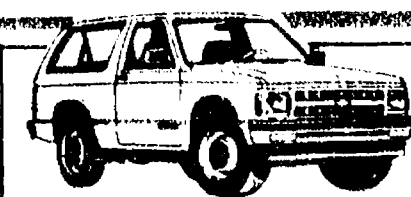

The Michigan Strategic Fund (the "MSF") will hold a public hearing at 9:00 a.m. at the MSF's offices located on the Third Floor of the Law Building, 525 West Ottawa, Lansing, Michigan, on the 4th day of October, 1990, on the issuance of bonds by the MSF on behalf of Grayling Generating Station Limited Partnership, ("Company") a Michigan partnership (comprised of Primary Power, Inc., a Michigan corporation and Decker Energy-Grayling, Inc., a Michigan corporation), CMS Generation Grayling Holdings Company, a Michigan corporation and CMS Generation Grayling Company, a Michigan corporation to assist the Company in financing the acquisition of land and the construction facility and associated facilities, which will be fueled primarily by wood waste and residue (the "Project"). The Project will generate electric power and energy for sale to Consumers Power Company and produce steam for residential or commercial use. The Project will be located in Grayling Township, Crawford County on East 4 Mile Road approximately 1/2 mile east of

175 and east of a sawmill operated by AID Forest Products, Inc., and will be owned by and undertaken for the benefit of the Company. The bonds are proposed to be issued in an aggregate principal amount not to exceed Fifty-eight Million Five Hundred Thousand Dollars (\$58,500,000). The bonds shall be limited obligations of the MSF, payable only from loan repayments to be made by the Company to the MSF and other collateral pledged by the Company. The bonds will not constitute an indebtedness of the MSF, the State of Michigan or Grayling Township within the meaning of any constitutional or statutory provision and will not constitute or give rise to a charge against the general credit of the MSF or the credit or taxing power of the State of Michigan or Grayling Township. The MSF has no taxing power. The hearing shall provide the fullest opportunity for expression of opinion, for argument on the merits and for introduction of documentary evidence pertinent to the nature and location of the Project and the proposed issuance of bonds. Written comments will be accepted by the MSF but must be received on or before the date of the hearing. Dated: September 6, 1990

LET'S READ TOGETHER--Mornings are usually reserved for group reading at the Grayling Elementary School. Second grade teacher, Mrs. Carol Williams, is shown working with one of her smaller reading classes. At left is Jillian St. Germain and right is Chris Peters.

"That's where Ol' Miss Perkins goes when she wants to hide out from us."

Welcome To The School Page

In our county of splendid natural resources, none surpass our most precious resource -- our children. This weekly page will highlight the creative achievements of our students in local schools. The Avalanche will be visiting our schools regularly for photographs and stories about students. We're also encouraging teachers to submit artwork, stories, poems, puzzles, and other original work by students. Watch for these as the school year progresses.

SMALL GROUP ACTIVITY--Teacher Mrs. Patricia Hawkins is shown working with two developmental kindergarten students during the first week of school. The children in the foreground are enjoying snack-time.

Back-To-School Lunches

Your youngsters may not know how to multiply yet, but the bacteria that can grow in the unrefrigerated food in the school lunchboxes certainly do.

Bessie Berry, who handles consumers' food safety questions as a supervisor on the U.S. Department of Agriculture's Meat and Poultry Hotline, says, "The experts tell us many common foodborne bacteria double their numbers in warm temperatures every 20 minutes!"

Berry says, "You need to take special care packing school lunchboxes to keep perishable food safe. Here's the food safety arithmetic to remember -- perishable foods should never be left unrefrigerated or packed without a cold source more than 2 hours. Keep perishables out of the danger zone, 40 to 140 degrees F., where bacteria grow quickly. Keep perishables either hot or cold."

To get everyone back to school safely, here are some lunch packing questions answered by USDA's Hotline Staff.

Q. I like a hot lunch for my child at school. How long will food keep safely in a thermos?

A. A well-functioning thermos can keep soup, chili, or other hot food at a safe temperature several hours. A stainless steel thermos is more effective than a plastic model. Check the seal around the stopper to make sure it fits tightly and will retain heat well.

As you pack your child's lunch in the morning, fill the thermos with hot water and let stand a minute or two. Then empty and fill promptly with food that's been brought to a boil. This will keep the temperature as high as possible until lunch time.

If the food is still hot to the touch (above 140 degrees F.) when your child has lunch, it will still be safe. Discard any leftovers.

Q. I've been using a freezer gel-pack to keep my child's sandwiches cold, but it's split and is starting to leak. Would it be dangerous if that liquid spilled on food?

A. Good question. You should check gel-packs before each use. If one leaks, tell your youngster not to eat any food that has come into direct contact with the gel. You might want to put the gel-pack inside a plastic sandwich bag for extra protection, or you can use a frozen juice pack as a cold source in the lunch bag. The juice will thaw but will still be cold at lunch time.

Q. My children tire quickly of sandwiches every day for lunch. Do you have any other suggestions for safe and nutritious lunch fare?

A. Variety is definitely the spice of life. Here are a few additional lunch menu suggestions:

- Fill a pita or pocket bread sandwich with boiled ham and drained pineapple chunks, cheese, and olives, or some other combination. With meat, poultry, fish, or other perishable sandwich fillers, of course, you'll need a cold pack in the lunch bag.

- Pack small, shelf-stable, individually wrapped cheeses with a bran or fruit muffin.

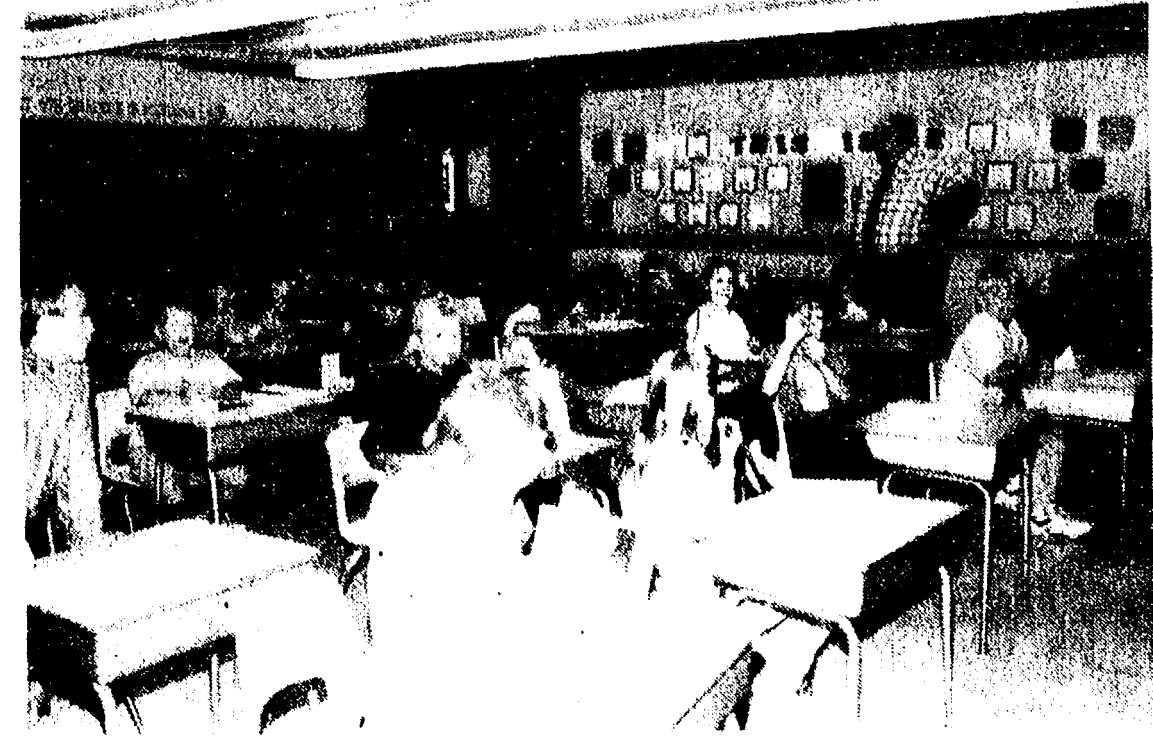

- Freeze and then cut meat sandwiches into cookie-cutter patterns. Coarse textured bread that won't get soggy during thawing works best for this, and the meat is kept cool and protected all morning as the sandwich thaws in time for lunch.

- Peanut butter, nutritious and safe without refrigeration for a few hours, makes a good lunch snack on whole-wheat crackers.

- Pack your child's favorite cereal and a carton of shelf-stable milk.

TIME TO SHARE--Show & Tell Time is a sharing time for students in Mrs. Berglund's primary class. During this Show & Tell, Danielle Beckwith was telling her classmates about her new tennis shoes.

ATTENTION PLEASE--A quick peek into Mr. Carl Hatfield's fourth grade classroom during the first week of school found most students listening to his instructions.

WORKING AT PLAYING--Academic and physical education work together to build sound minds and bodies. Here Mrs. Yatich's students are beginning their gym class with some "wake-up" stretches.

LEGOS AND LANGUAGE--(L-R) Nick Baynham, Michael DeMoines and Matthew Helton, students in Mrs. Dean's second grade, constructed airplanes from Lego Building Blocks and then wrote short stories about their creations. Matthew read his story to his principal, Mr. Melvin "Pat" Nunn. The story, entitled The Five Motor Jet, was about Matthew's unique five motor jet that could fly from here to New York in one and a half seconds. When Mr. Nunn asked Matthew why his jet had five motors, Matthew explained that at first his airplane had only four motors, but when he learned his friend's airplane could go faster than his, he added the fifth motor.

The children were bowling in the hallway of their house when they woke up their Dad. He quickly asked them to move their noisy game.

By moving just 3 pins can you change this ten-pin formation around so the kids can bowl from the opposite direction?

(Answers to puzzles will appear on next week's school page.)
